Chubb
POWERED BY **APi GROUP**

Online Training

Chubb offers a number of online workplace emergency response training courses through our online portal. The web portal offers you the flexibility to participate in training at a time that suits you, plus the convenience of being able to complete the course from the comfort of your home or office.

Duration and Location

Typically courses take 1-2 hours to complete and include a multiple choice assessment. The courses are available anywhere where you have a connection to the internet.

Courses

There is a wide range of online courses available through the portal that will help your business to manage its compliance obligations. In addition to the three courses listed below, visit the portal at http://chubb.kineoportal.com.au to review the full course library.

## General Evacuation training

This course will provide an understanding of:

- what an emergency is and the need for emergency preparedness training
- some of the emergency prevention and preparation strategies used
- roles during an emergency
- emergency protection systems and emergency warning systems
- how to respond to an emergency, and
- actions to take during an emergency.

Warden Training

This course will provide an understanding of:

- what emergencies are and how people behave during emergencies
- emergency preparation and prevention, including the need to identify and control hazards
- the roles within and responsibilities of the emergency control organisation (ECO)
- fire protection systems
- how to respond in the event of an active shooter emergency
- how to respond safely to an emergency and assist other occupants, and
- warden roles before, during and after an emergency.
