POWERED BY **APi GROUP**

Edwards™ iO
Intelligent Life Safety Systems

Revolutionary and leading-edge, the iO series establishes the benchmark for life safety in smaller buildings. Engineered to collaborate seamlessly, its control panels, devices and accessories operate as a unified system, ensuring a smooth user experience.

FEATURES

- Custom programming allows designer to customize powerful built-in features that will suit the needs of most buildings.
- All iO Series connections are made over standard wiring, making it particularly well suited to retrofit applications while respecting timelines and budgets.
- Supports 8 annunciators on a single system.
