POWERED BY **API GROUP**

Access Control Solution

Powered by **Chubb vision** studio

Designed For Everyday Security and Convenience

Powered by Chubb Vision Studio—our home-grown platform that unifies security, fire safety, building systems, and IoT intelligence into one centralized interface—this solution brings simplicity and strength to modern access control.

Designed for everyday security and convenience, it combines advanced technology with intuitive management to protect what matters most. Start with a standalone system and scale effortlessly as your needs grow, integrating with other building and safety systems for a truly unified experience. Whether you're safeguarding a single office or managing multiple sites across regions, Chubb delivers peace of mind through innovation, reliability, and a commitment to smarter security.

All-in-One Management

- ✔ Control every door, card, and event from a single, easy-to-use platform.

Built To Grow

- ✔ Start with one door and scale to thousands as you grow. Our modular design makes expansion effortless and future-ready.

Future Ready Scalability

- ✔ Begin with standalone access control system, and integrate with fire safety, security, and other building systems through [Chubb Vision Studio](#) whenever you need.

Health Check Built-In

- ✔ Proactively monitor system health and device status to prevent downtime and ensure uninterrupted security.

Dual Ethernet Connectivity

- ✔ Deliver seamless performance with built-in flexibility—choose network segmentation for enhanced security or redundant connections for maximum reliability.

Robust Security

- ✔ AES256 encryption and built-in safeguards keep your data and premises protected, even during network interruptions.

Offline Interoperability

- ✔ Stay connected—even when the server isn't. The peer-to-peer communication ensures uninterrupted I/O operations and seamless performance during offline scenarios.

Built-In Smart Response

- ✔ Instantly cue CCTV live streaming the moment an alarm is triggered, delivering visual verification for enhanced security.

Your Key To Smarter Spaces

- ✔ One tap, endless possibilities—doors, lights, HVAC, systems all work together.

Cost-Effective

- ✔ Enjoy premium features with clear pricing—no complicated licensing tiers.
