Zoetermeer, 29 November 2019

Dear Mr Bajdas,

On 10-10-2019, we have sent you the preliminary results of the annual surveillance assessment for Milieukeur, and requested additional information.

We have received the requested information and the assessment should be concluded with positive results within reasonable time.

Because your current certificates (numbers 140874, 140876, 140877, 140878, 142174, 142175 & 142176) expire on 30-11-2019, we have administratively extended this certificate with 3 months, until 29-02-2020. This means that you can use the Milieukeur logo on these products, even though the current certificate has expired. The products will also remain listed as certified on our website until this date.

If the assessment is not concluded with an extension of Milieukeur, the Milieukeur mark may not be used in any way after this date in relation to the products. This includes but is not limited to leaflets, websites, advertisement, packaging and labels. But as mentioned, we trust on a positive conclusion.

Yours sincerely,

Ron Troost
